

Emil FITOŠ

President of the IT Association
of Slovakia

After his studies and running the private business Emil Fitoš spent more than 20 years of his working life in Siemens, later in Atos corporation. In 2014 he became CEO of Atos Slovakia as well as of Atos Czech Republic. Under his management, Atos was one of the leading companies in the market with a remarkable innovation track. On June 21st, 2017, he was elected president of the IT Association of Slovakia. In 2019 and 2021, he was re-elected.

He acts as an advisor for the Slovak government and vice-chairman of the Government Council for the Digitization of the Public Sector and Digital Single Market. He also influences the digitalization of Slovakia through his involvement in the activities of the Digital Coalition and the Center for the Development of Artificial Intelligence AISlovakIA. He was one of the initiators of the creation of the Slovak Center for Digital Innovations.
