# Marek KOŽARÍK

## GEODETICCA VISION

Marek Kožarík is the founder and CEO of GEODETICCA VISION, where, in addition to his regular duties, he is also involved in inventing (his favourite thing) and managing research and development projects and creating innovative products and services in the areas of Geoinformatics, IoT, Mapping automation, Artificial Intelligence and Computer Vision.

He studied Geodesy and Cartography at STU Bratislava and subsequently obtained a PhD in Geodesy at TU Košice. He obtained a professional certificate in management at the Open University and in 2018 he entered the secrets of AI thanks to the Nanodegree program Artificial Intelligence programming with Pyton on the Udacity platform.

He worked as a consultant of the ICT working group for the Ministry of Education in the formation of the Research and Development Strategy for Smart Specialization of the Slovak Republic (RIS3), advisor to the First Secretary for Science, Research and Development of the Permanent Representation of the Slovak Republic to the EU - for the area of HRSD (High Resolution Satellite Data), member of the FBERG TU in Košice in the field of study of doctoral studies in Mining Surveying and Geodesy.

He is a member of the Chamber of Surveyors and Cartographers, a member of the Industrial Council of the Faculty of Civil Engineering of TU Košice. As an eternal student, he is expanding his horizons in the UDACITY Nanodegree program Product Manager and learning the Wim Hof method and Thai boxing.
